

# The Social Mobility Program

UNIVERSITY OF HAIFA

אוניברסיטת חיפה جامعة حيفا

**Creating Inclusive Academic Excellence**

A new campus-wide initiative dedicated to advancing underrepresented students from Israel's geographical and social periphery. This flagship program offers comprehensive financial, academic, and social support services to students from socio-economically disadvantaged backgrounds throughout their studies and assists them in integrating into the workforce. The University of Haifa is particularly noted for its emphasis on civic engagement and strong connections between its faculty, students, and the larger community in northern Israel.

**W**idening participation in higher education is the key solution to improve social mobility among young adults in Israel's social and geographic periphery, as it has a critical influence on social development and mobility in Israeli society. As the first Israeli university to define inclusive academic excellence and social mobility as a high priority, the University of Haifa is strongly positioned to take action and make an impact. This project is based on a novel model of intervention and is continuously monitored and evaluated. We employ a unique intervention paradigm that offers a holistic approach to advancing marginalized and underprivileged populations.

#### **REQUEST FOR SUPPORT:**

---

A gift of \$30,000 provides a deserving student with a full, three-year scholarship for the Social Mobility Program.

## **DID YOU KNOW?**

Russian-born American sociologist and political activist Pitirim Sorokin first introduced the concept of Social Mobility in his book "Social and Cultural Mobility."
