The Faculty of Education

Transforming Education. Transforming Lives.

The Faculty of Education is Israel's largest and most comprehensive faculty of education in Israel. Through rigorous research, innovative programs and training of educational professionals in specialized fields including reading literacy and mathematics education, special education and giftedness, educational technology and educational management, educational neuroscience, educational psychology and psychological counseling, the Faculty of Education is playing a central role in shaping educational research and policy in Israel and around the world.

We invite you to partner with the University of Haifa to train the next generation of educational researchers and leaders in Israel and around the world. A generous gift of \$10 million will enable the University to name the Faculty of Education in your honor.

Pioneering Research and Teaching

"The Faculty of Education is dedicated to producing groundbreaking research, model programs and exceptional leaders in education to achieve equitable, accessible and effective learning for all."

"Our researchers at the forefront of research and teacher training in areas ranging from mathematics and gifted learners to integrating neuroscience into the field of education."

Prof. Ron Robin, President

Research Centers

The Faculty of Education is home to 8 research centers and 17 laboratories that produce cutting-edge research on broad range of issues in education. The Faculty's research-driven initiatives put innovative practices, strategies, and tools directly into the hands of practitioners.

Due to our success on the national and international stages, a number of our centers have been awarded funding from the Ministry of Education and donors, including the Edmond J. Safra Foundation and the Trump Family Foundation.

“We take seriously the role that education plays in building a strong, vibrant and democratic Israeli society. Our goal is to prepare our graduates to take on leadership roles in the Israeli education system, help students reach their full potential.”

- Prof. Roza Leikin, Dean

Innovative Research Centers

- Edmond J. Safra Brain Research Center for the Study of Learning Disabilities
- National Teachers' Centers for Elementary and High School Mathematics Education
- Israeli Center of Research Excellence: Taking Citizen Science to School
- Interdisciplinary Center for Research and Advancement of Giftedness and Excellence (RANGE)
- Israeli Center of Research Excellence: Teaching with the Heart and Mind
- Clinical Research Center for Advancement of Populations with Special Needs

THE FACULTY OF EDUCATION

Research - Education - Practice

Shanghai University Ranking in Education

Ranked #1 in Israel

***Our newest MA degree in Mind, Brain, Education
is the only program of its kind in Israel***

Our Faculty is engaged in advanced research in cognitive and developmental psychology, education technology and educational neuroscience. We are preparing educational specialists who will take leading roles in shaping the future of Israel. Our degree programs draw on our Faculty's multidisciplinary expertise in Teacher Education, Sociology, Law, Psychology, Neuropsychology, Management; Mathematics, and Cognitive Psychology.

**We invite you to partner with us.
Transforming education. Transforming lives.**

MEET ONE OF OUR STUDENTS

Ravit Avram (Department of Special Education) has been working with children with autism spectrum disorder for over twenty years. She is currently a PhD candidate and supervises a team of Special Ed teachers in the integration process of students with ASD into the regular education system.

“Our research is helping Special Ed teachers expand their teaching and assessment ‘toolkit’, improve their abilities to meet their students’ diverse learning needs, and assist their students to enter into the workforce as independent adults. We are making a difference in the lives of ASD learners.”
